Sunbrella fabrics offer significant sun protection

The Skin Cancer Foundation recommends Sunbrella® as an aid in the prevention of sun-induced damage to the skin. Please use shading products featuring Sunbrella as a part of your complete sun protection regimen, including regular use of sunscreen.

* Does not apply to styles of Sunbrella that are designed for transparency, such as Sunbrella Shadow.

Sunbrella fabrics are durable and easy to clean

High performance, UV stabilized pigments are added during the production of fade-resistant Sunbrella fiber, giving Sunbrella yarn and fabric color throughout that won’t fade or wash away. Think “carrot.”

In ordinary fabrics, dyes are added to the surface of the yarn or fabric. The color only penetrates the outer layer and washes out or fades away over time. Think “radish.”

Sunbrella upholstery fabric has achieved GREENGUARD GOLD Certification.

Sunbrella upholstery fabrics are certified by GREENGUARD as contributing to healthy indoor air by being a very low emitting interior product.

The Sunbrella brand - Sunbrella® is the most recognized and trusted name in performance fabrics for the Casual Furniture, Residential Furniture, Awning, Marine and Automotive markets for over fifty years.

Fade-resistant - Sunbrella fabric is unmatched in resistance to fading and the degrading effects of sunlight.

Colorfastness - Sunbrella fibers are saturated with highly UV stable pigments. Traditional dyeing methods, such as yarn or piece dyeing, only add color to the fiber exterior. Sunbrella fabrics’ performance characteristics are an integral part of the fabric, not an applied finish that would wash off over time. Think of a carrot versus a radish.

Durable - Sunbrella fabric retains its strength after years of cleaning and weathering.

Cleanable - Mild soap cleans most common stains. Using bleach or solvents for tough stains will not affect Sunbrella fabric, but don’t try this with other fabrics.

Limited five year warranty - Sunbrella fabrics’ warranty protects against the fabric becoming unserviceable due to color or strength loss from normal usage and exposure conditions, including sunlight, mildew and atmospheric chemicals.

Luxurious touch - Sunbrella fabric has the soft hand of a spun cotton for exceptional comfort.

Quality - Sunbrella fabric utilizes the finest raw materials, an ISO 9000 certified vertical manufacturing operation, on-site testing labs, and over forty-five years experience with performance fabrics.

Design - Sunbrella furniture fabrics offer more patterns, colors and designs than any other performance fabric. Our designs and colors work well in any room of the house.

Service - Dedicated customer service, technical support, research and development, and marketing-sales staff.

Make sure to insist on using Sunbrella performance fabrics.
