Fabrics treated with Alta are exceptionally easy to clean and maintain.

1. **Liquid spills:** Don’t wait!
   Blot liquid quickly and gently with a clean, dry, absorbent cloth. If liquid remains, continue with gentle blotting. Gently remove any soil or debris from the surface. No rinsing needed.

2. **If any residual spot remains:** Flush liberally with warm water and blot with a clean, dry, absorbent cloth. Change blotting cloth surface frequently until spot is gone. (Avoid brushing which can spread the stain!) Repeat process until spot has been removed. Finish with final warm water rinse and blot.

3. **For difficult or stubborn stains:** Mix 2-3 drops of any mild laundry detergent with 1 cup of water and apply to soiled area. Gently work solution into the area, wait several seconds and blot the spot with a clean, dry, absorbent cloth. Repeat until spot has been completely removed. Rinse thoroughly with warm water and blot to remove any soap residue. (Be thorough here; soap not rinsed away in the fabric can cause a recurring stain.)
