TREND REPORT

**CARLISLE & CO.'S**

Tecido Vinyl comes in a range of colors, including Emerald, a rich blue-green. The wallcovering line's subtle striping and pattern give the illusion of all-over texture and is inspired by finely threaded textiles. Because it is high-performance vinyl, it is durable and perfect for high traffic areas. Through **Holly Hunt**.

**THIBAUT'S** Tapes & Trims are a wonderful way to embellish everything from pillows to draperies in exclusive and coordinating colors, sizes and designs. This new collection incorporates decorative elements and techniques like embroideries, appliques, printed patterns and pleats. The line comes in various colorways, including Kelly and Bermuda, shown here.

**PINDLER'S** design pairings help you coordinate colorways and graphic patterns seamlessly. Nouveau and Maestro take modern, geometric designs and add a punch of drama with bold colors and embellishment. Shown here in rich cerulean blues and poppy red-orange hues.

**EBANISTA** The Vienna Angled sofa is part of the new Évolution collection, which includes sofas, chairs, casegoods, lighting, mirrors and paintings. The collection celebrates high-fashion, bold color, modern shapes, elegant finishes and fine detailing.

**THE VALE LONDON'S** World's End collection, designed by Melinda Marquardt, is inspired by ancient folkloric and spiritual motifs merged with contemporary artistry, as well as the visual vibrancy of London's Chelsea district, the heart of the 1960s counterculture movement. Kentia, shown here, is just one of the many patterns. Through **Fabricut**.
