chair redos

front and back

Two fabrics are better than one! Get inspired to make over your own chair with these clever ideas.

Nervous about committing to a print? Use it on just the back, and pick up one color from the mix for the front. Hot pink and painted white legs make this traditional chair shape look more modern.

FABRIC (front) Duralee 32789 linen fabric in shocking pink, \$34 per yard, decoratorsbest.com; (back) Pindler Curio linen fabric in multi, \$53 per yard, shopmaddieg.com **PAINT** China White by Benjamin Moore
