The Heritage Collection is an elegant grouping of fabrics and trims inspired by the charming spirit of the English countryside when flowers are in bloom and colors feel fresh and lively. The collection blends quaint romance with classic refinement through embroidery, print, and tranquil yet striking colorways.

Originally featuring four fabric designs and two coordinating trims, the collection now expands with three new printed fabrics. Featuring floral and woodland motifs, these designs are printed on a washed linen blend ground cloth, adding warmth, character, and timeless appeal while remaining fresh and versatile. Each design coordinates beautifully together or stands confidently on its own.
